THOMSON REUTERS™

What you can do with EndNote

- Create a customized library of all your references.
- Insert those references in Microsoft® Word, Wolfram Mathematica 8, or Apple® Pages, and EndNote will automatically create citations and a bibliography matching the requirements of your selected journal or style manual; it has over 6,000 bibliographic styles from which to choose.
- Attach PDFs, sound files, videos, or any other kind of file to your references – up to 45 files per record.
- Read and annotate attached PDFs.
- Organize your library using groups to categorize references by project, subject, or anything else you choose; the same reference can be in as many groups as you want.
- Sync your EndNote references and groups across multiple computers, share references with others, and access your references from almost anywhere with any Internet browser by logging into your EndNote online account at my.endnote.com.
- And much, much more!

Get started in 7 easy steps

1 CREATE YOUR ENDNOTE LIBRARY

CREATE AND SAVE

Go to File > New. Save your library in your Documents folder.

2 IMPORT YOUR PDFS

IMPORT PDFS

If you already have PDFs of full-text articles on your computer, you can start by importing them into your EndNote library. With your library open, go to File > Import to import one PDF or a folder of PDFs.

3 IMPORT REFERENCES FROM ...

IMPORT REFERENCES

Many online databases give you the ability to export references to your EndNote library. Look for the option to save, export, or send to EndNote. The EndNote option might also be labeled as "RIS."

4 ORGANIZE YOUR REFERENCES INTO GROUPS

CREATE A GROUP

Go to Groups > Create Group. This creates a group with a folder icon on the left. Give your group a name. Drag and drop references from your library into this group. The same reference can appear in multiple groups and is not duplicated when you do this.

CREATE A SMART GROUP

Go to Groups > Create Smart Group. Define a search parameter and give this group a name. Click on the Create button. A Smart Group automatically shows references that match that search. This group will also instantly update as you add more references to your library that match that original search.

COMBINED GROUPS

Explore the relationships between your existing groups. Go to Groups > Create From Groups. Pick at least two groups in the drop-down menu and select your Boolean operator of choice. Give this group a name, click on the Create button, and a combined group will appear on the left. This group is also a smart group and will update as your component groups change.

5 SIGN UP FOR SYNC TO ACCESS YOUR LIBRARY ANYWHERE ... AND SHARE

You can automatically sync your desktop, online, and iPad libraries so that all the references, attachments, and annotations in one can be accessed from the other. Although only custom groups will appear online or on the iPad, all groups and group sets will appear on all synced desktop computers.

Three ways to access your library:

1) EndNote Desktop

GET STARTED

With your library open, select the sync button to get started.

SIGN IN

Sign in with your EndNote online account or create a new account.

2) EndNote Online

ACCESS YOUR LIBRARY

Access your library online and on the iPad app.

3) EndNote iPad App

7 CITE REFERENCES IN WORD

Powered by patented CITE WHILE YOU WRITE™ technology.

OPEN A DOCUMENT IN WORD

Now that you have some references in your EndNote library, you can start to cite them in your documents. Use the following **Cite While You Write** commands to insert citations, edit citations, and change styles as needed.

FIND AND INSERT MY REFERENCES

Place the cursor in your document where you would like a citation to appear. Use this command to search for a reference in your EndNote library and insert it into your paper.

PICK A STYLE

Use the style drop-down to pick a style from among your favorite styles or choose **Select Another Style** to see a bigger list of styles. You can download more styles at endnote.com.

EDIT AND MANAGE CITATIONS

Use this command to edit specific citations:

- Change the formatting of your in-text citations.
- Add a prefix, suffix, and/or pages to your citations.
- Remove citations.

DID YOU KNOW ... ?

ENDNOTE CAN FIND THE FULL-TEXT ARTICLE FOR YOU

If you have access to PubMed LinkOut and/or OpenURL, you can point EndNote to these resources when you run the Find Full Text feature. In the EndNote preferences, go to the Find Full Text setting and check the PubMed LinkOut box. Enter your OpenURL server in the OpenURL Path box. If you have an EZProxy server, put that into the authenticate with box.

To run Find Full Text, select one reference or multiple references in your library. Then use the Find Full Text button in the toolbar or go to References > Find Full Text.

YOU CAN MANUALLY ENTER REFERENCES

You won't be able to find everything online. To enter a reference manually, go to References > New Reference. This opens a new reference window for you to start typing (or pasting) into the fields. Here are some guidelines on entering references:

1. Set the reference type in the drop-down menu at the top of the record window.
2. Enter author names as follows:
Smith, John Oscar (Last name, First name)
Smith, J.O. (Initials separated by periods)
Center for Disease Control and Prevention,
(Add a comma at the end of corporate names)

For multiple authors, enter each new author on a new line within the Author field.

YOU CAN VIEW AND ANNOTATE YOUR PDFs

View the PDF attached to your reference in the Reference Panel on the right or use the Open PDF/Close PDF toggle button to view it in full-screen mode.

You can highlight, underline, strikethrough, and add notes directly within the PDF Viewer. These annotations are editable by all when you share your library. When you sync, you can resume editing them on the iPad app, or review them in EndNote online.
